SKILLS

- ❖ **Java, C programming**
- ❖ **HTML, CSS, Javascript**
- ❖ **Nodejs, Express**
- ❖ **Version Control: Git, React**

EDUCATION

- ❖ Bachelor of Engineering | Information Technology
- ❖ Shree L.R Tiwari College of Engineering
CGPA:7.05|(2022-2026)
- ❖ XII (HSC)
75.65% |2021

ACADEMIC PROJECTS

- ❖ **Tic-Tac-Toe Game**
Developed a fully interactive Tic-Tac-Toe game. The game features a dynamic interface and responsive gameplay mechanics, allowing two players to compete on the same device. HTML, CSS, and JavaScript.
- ❖ **Weather Prediction**
Developed a web-based weather prediction application that provides real-time weather forecasts for various city name locations. The application fetches weather data from a public API. React and Material UI
- ❖ **Hotel Rental and Review System**
Developed a comprehensive platform for hotel rentals and reviews, enabling users to explore available hotels, view detailed descriptions, and submit reviews. Built using Node.js, Express, EJS, Bootstrap, and MongoDB, with Cloud APIs for seamless integration and enhanced functionality. This system focuses on providing a user-friendly interface for hotel browsing, booking, and feedback collection

POSITION OF RESPONSIBILITY

- Served as a member of the Sports Committee during the first year, organizing and participating in sports-related events to promote a healthy and active campus lifestyle.
- Played a key role in the Public Relations (PR) team for the inter-college Spotlight event, contributing to the planning and executing of the event's promotional activities.

ACHIEVEMENTS / HOBBIES

- Actively contributed as a technical committee member, participating in discussions and decision-making processes related to technical aspects within the college.
